

# Spring is on the way!

Snowdrops are popping up and the buds are swelling on blossom trees – it's time to pop out into the garden and enjoy the promise of spring as the time you have to do some gardening gets a little longer every day. At Port Sunlight Garden Centre we have hundreds of fresh plants ready to enjoy this spring from pretty primroses to stunning flowering cherry trees. With fresh plants arriving daily, there is always something new to add interest to your pots, tubs, baskets and borders.

Take a potter round our plant area and pick the perfect plants for your plot, grab some compost, seeds and feeds... Feeling a little hungry yourself? Then enjoy a visit to our café before taking a wander round to see our new garden furniture, benches, patio sets, wind spinners and much, much more.

We have everything for your garden this spring, so pop in and enjoy The Place for Plants.
