

Modern and Traditional Gents Barbers

ALL WELCOME

Tony's Barbers shop supports the charity Checkmads.

242A Telegraph Road, Heswall CH60 7SG

OPEN TUESDAY – SATURDAY

Hello everybody. I'm Ian Waring and I own and run Hearing Expert in Greasby. We've had a great second year here in Greasby and would like to thank all our customers for their continued support.

Being an independent supplier, I can pick and choose the best from each and every manufacturer. The good thing about 'clever' technology is that you don't have to be clever to use it. A good hearing instrument should be automatic and adapt to the environments that you find yourself in. We've got some great introductory prices on all of these products. This stuff really does work but don't take my word for it, try it for yourself for free with no risk and proper support.

We offer 90-day trials as this takes the guesswork out of choosing the right aid and means our customers get the right aid for their money. I hear far too many stories from people who have already bought hearing instruments only to find the support is poor and they never realise their full hearing potential. A good hearing instrument can be reprogrammed to accommodate further hearing loss and should last from six to eight years. I've got some patients who have had the same hearing instruments from me for over ten years and they are still working well. Good support gives good hearing instruments the longevity the price demands.

As for price, we are never beaten, so if you do see your hearing instruments cheaper we will refund the difference. Why not try some of the latest technology and really hear what all the fuss is about.

Because, IF YOU HEAR BETTER, YOU LIVE BETTER.
