ULTRAcel

The Award Winning Non-Surgical 'Ultra-Lift'

ULTRAcel is a revolutionary, no down time, triple facelifting technology; together they create the most complete non-surgical face lift known as the Ultra-Lift.

ULTRAcel delivers non surgical skin tightening and lifting as well as addressing fine lines and wrinkles. The result is fresh, glossy and smooth looking skin. It's safe, clinically proven and taking the UK by storm.

It makes the skin feel and look instantly firmer and more taut, and improves over time as the new collagen grows. It includes Micro-Needling with RF to tighten, tone and rejuvenate, Surface Radio Frequency to promote natural collagen growth and Ultrasound which precisely targets and contracts the muscle/fat layer and lifting jowls. Together they create the most complete non-surgical face lifting technology.

Combination Treatments

Book in for a free consultation about combination treatments that might help accelerate your results.
