

Four Seasons in Bromborough has been supplying and installing quality windows, doors and conservatories for homeowners in the Wirral, Chester and the North West since 1992.

More recently we have expanded our product range and now offer not only PVCu products, but also specialist timber alternative PVCu products, aluminium and classic timber windows and doors, all of which are on display in our newly renovated showroom on Croft Business Park in Bromborough.

As well as our showroom renovation and extended product range, we have also given ourselves a little facelift after 26 years with a new website and a new look logo.

Below are some of our offerings in our Bromborough showroom:

Four Seasons are the Wirral's 'Premium Installer' for Solidor. A 48mm thick composite door with a solid timber core which are available in both traditional and contemporary designs.

We are also an Approved Installer of Residence Collection Windows, including the Residence 9, which is a specialist timber-look window and has been approved in conservation areas due to its authentic shaped profile, beading options and glazing bars, traditional furniture range, fully mechanically jointed frame and 100mm front to back window. We are also able to offer Residence 7 for the more contemporary look.

Four Seasons are the Approved Partner in the North West for George Barnsdale who have been manufacturing timber windows and doors since 1884. They offer a full range of bespoke timber products from windows, doors, traditional sliding sash, bifold doors, sliders and in many different colour and stain options. George Barnsdale Timber also offer a beautiful range of furniture for their full product range.

We are approved installers for Origin Global, a British manufacturer of quality aluminium windows, doors, bifolding doors and sliding doors.
