

Envy Facial is an advanced skin-resurfacing treatment that combines exfoliation, extraction, and infusion of condition-specific serums to improve skin health, function and appearance.

Envy Facial is fully customisable to you and the perfect way to achieve healthier, more radiant skin from head-to-toe.

**How?** Envy Facial eliminates time gaps between exfoliation and serum application with a unique simultaneous infusion delivery.

**Why?** By infusing the skin with serums at the moment of exfoliation, skin experiences maximum penetration of active ingredients at optimal skin depths, and enhanced serum absorption and retention receptivity at a deeper level. This produces proven, long lasting results.

Because of Envy Facial's distinctive simultaneous technology, plumpness, volume, hydration, tone, and texture are optimised.
